

Lara York
Director, Education Foundation

As a parent of two Fremont Unified School District students and a passionate community advocate for quality education, I want to build upon our school district's accomplishments by focusing on student success, fiscal responsibility, safe schools and healthy choices for our children.

As a six-year Fremont Education Foundation executive board member and President of the Fremont Chamber of Commerce Dollars for Scholars, I have promoted community and business investment in schools. Through such efforts, these organizations provide after-school band, teacher grants, and sports and academic scholarships to benefit Fremont Unified School District students.

I am a strong believer in parental involvement and have served on the Parent Representative Advisory Assembly, Financial Advisory Committee, Health and Safety Bond, Community Facilities Committee, PTA, and School Site Council.

I have developed the knowledge, experience and relationships needed to build consensus and succeed as a Board Trustee. Having faithfully attended school board meetings for eight years, I know the history of current issues. I was educated from kindergarten through a bachelor's degree in Business Administration in California's public schools, and respect the variety of education values of all Fremont residents.

I pledge to be accessible and responsive to your needs (510-713-9675; www.LaraYork.com). I respectfully ask for your vote.
